Sir:

Applicant submits herewith copies of the following references, previously cited in the Information Disclosure Statement and PTO-1449 forms filed February 25, 1994:

It is Applicant's opinion that the claims presently on file patentably distinguish the present invention from each of these references. The above references are being cited only in the interests of candor and without any admission that they constitute statutory prior art or contain matter which anticipates the invention or which would render the same obvious, either singly or in combination, to a person of ordinary skill in the art.

Respectfully submitted,
